Indianapolis, IN 46204

Dear Barry,

We have completed the 2018 ratio study for Fountain County's annual adjustment. We used every sale that was deemed valid for the period January 1, 2017 – December 31, 2017 including multi parcel sales and sales that were vacant at the time of sale but are now improved. The market in Fountain County is static, the sales that are occurring, outside of family and forced sales, are not increasing but stable exhibiting more typical marketing times. During sales file reconciliation we found 10 sales that are valid in both ScanMan (disclosure vendor) and in ProVal (cama vendor) but did not show up on the DLGF sales file as valid, these sales have been used in the ratio and are noted on the SalesRecon tab with red font.

Residential and Agricultural Homesites

All townships vacant parcels have been grouped together to create a better market area based on similar economic factors. New neighborhoods have been created for new subdivisions, row-type dwellings and mobile home parks and factors applied when necessary to bring the neighborhoods within IAAO standards. Foreclosed sales have been reviewed by neighborhood to determine if that was the normal market for the area.

Commercial and Industrial

There has not been any valid commercial or industrial land sales. Vacant land that did sale was part of a multi parcel sale or a parcel added to an adjacent owner. Most commercial and industrial sales are of improved land

Summary

Sub market and market areas have been created to group similar smaller areas together for analyzing data. Four townships have been grouped together to create Group 2; Davis, Fulton, Shawnee, and Wabash, these townships are all very rural. Three townships have been grouped together to create Group 4; Jackson, Millcreek, and Richland, which are similar areas all having small incorporated towns. Overall, there has been little change in improved value; however rural land is starting to see an increase. There was little to no movement in value of Commercial and Industrial properties.

If you have any questions feel free to contact Cathi Gould 317-402-7262 or cathi.gould@tylertech.com

Sincerely,
